

LV1

Installation Machine

Now there is a more economical way to install O-rings onto components and assemblies for low volume applications. The LV1 enables an operator to position an O-ring onto a part with just a simple push. It provides a quick and easy way of installing O-rings at an affordable price.

- Compact Benchtop Machine
- Capable of installing up to 45 parts in a minute
- Reduces operator fatigue from manual installation
- Eliminates rolling or twisting of O-rings
- Easy Tooling Change-Over

Standard LV1 Dimensions

Width 12.00" (304.8 mm) x Depth 24.00" (609.6 mm) x Height 20.00" (508.0 mm)

Machine Specifications

100-240 VAC, 50/60 Hz.

70 psi air supply.

Ring Specifications

.150"- 1.00" O.D. (3.81 mm - 25.4 mm)

NOTE: O-ring size is dependent on ratio of cross section to O.D. and stretch specifications
